

Farmer's smile is our achievement

Green Bangla Agrovvet Ltd.

Our Story

Green Bangla Agrovat Ltd. started in 2008 as a joint venture between Korea and Bangladesh. After 5 years, it became a fully Bangladeshi company. Now, it's a leading pesticide company in Bangladesh, well-regarded by farmers for its quality products. The company offers various high-quality pesticides to support agriculture.

Our Mission:

We aim to help Bangladeshi farmers by offering top-quality products at affordable prices through every possible means.

Our Vision:

We strive to realize our mission by establishing a formulation plant and other facilities, making it easier for farmers in Bangladesh. We believe in using innovative and effective technology to enhance business, maximizing our company's potential.

Growth

Green Bangla Agrovat Limited stands as a prominent and rapidly advancing enterprise within Bangladesh. With a workforce exceeding 250 employees, the company consistently achieves an annual growth rate of no less than 9%.

Management

KBD. Mr. Md. Habibur Rahman, the founder and **Managing Director** of Green Bangla Agrovet Limited, has been leading the company since the beginning. With a B.Sc. Ag. degree from Sher-E-Bangla Agricultural University, Dhaka, Bangladesh in 1986, he has had a successful career in agriculture. Under his guidance, the company has grown into a significant player in the pesticide industry, employing over 250 dedicated staff. In 2015, the company acquired a pesticide manufacturing facility in the Dhamrai BSCIC area, which now serves as its main production center.

In 2017, **ENGR. Mr. Riashat Habib**, the eldest son of Mr. Md. Habibur Rahman, became the Executive Director, bringing significant changes to the company. Holding a B.Sc. in Engineering from Ahsanullah University of Science & Technology, Dhaka and an M.Sc. in Electrical and Electronic Engineering (EEE) from Australia, he joined the family business in Bangladesh. Currently overseeing the marketing department, Mr. Riashat played a crucial role in achieving the company's impressive milestone of 100 crore in sales in 2021. Recognizing his contributions, he was promoted to **Deputy Managing Director** in January 2022, solidifying his position as a key figure known for strategic foresight.

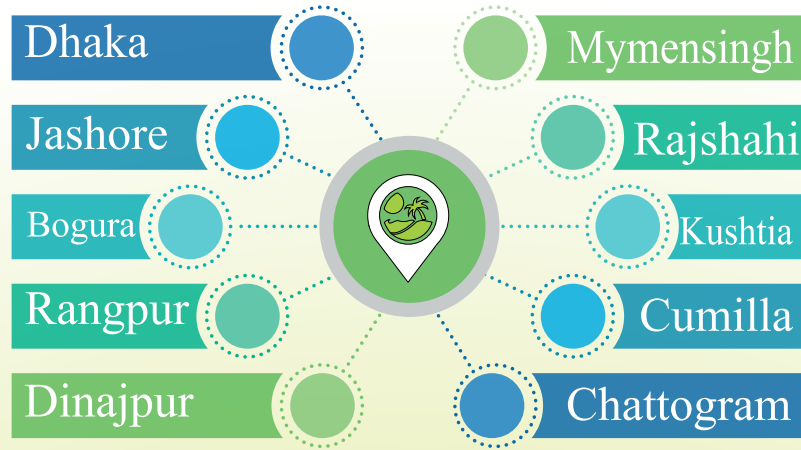

Factory And Productions

In 2015, **Green Bangla Agrovet Limited** acquired a 6 storied building of 35,000 sq. ft. factory in Dhamrai, employing over 50 permanent and 50 daily workers. Annual production is 500 metric tons, supported by 2 filling machines, 6 weighing machines, and a store room holding 2000 metric tons. The factory, now the main operational hub, prioritizes environmental safety with an ETP plant. Employee well-being is ensured through measures like first aid boxes, a dedicated rest area, and two times free medical treatment. At Green Bangla Agrovet, employees' welfare is a top priority.

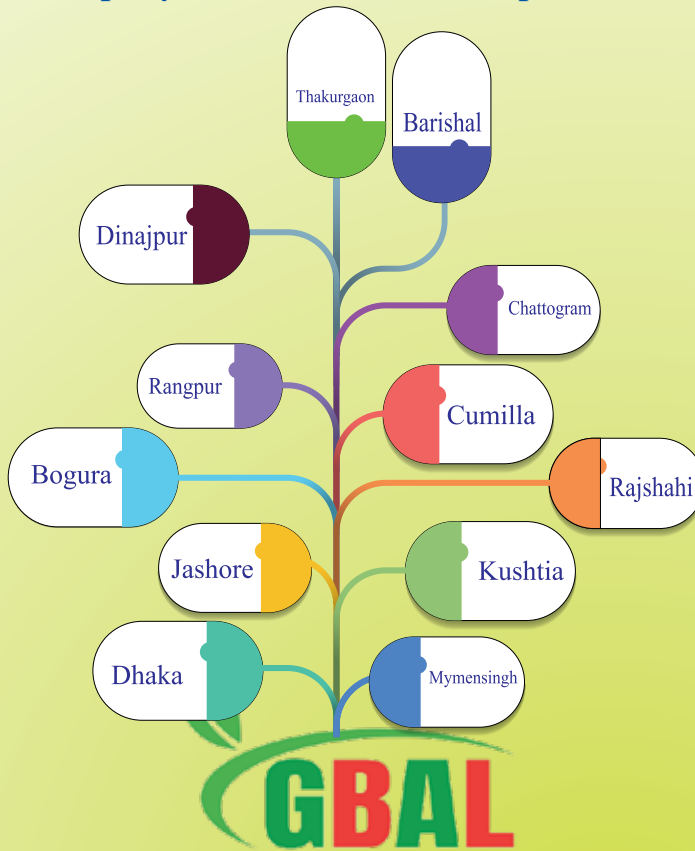

Regions

The company's total area divided into 10 regions.

Depots

The company has established 12 depots in 10 regions.

Sister Concerns

Green Care Bangladesh

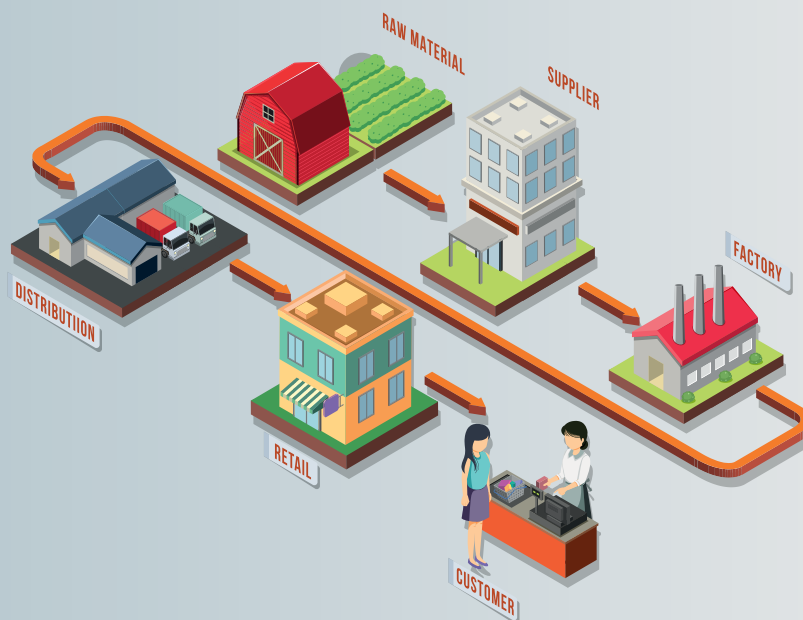

Green Care Bangladesh, a sister concern of **Green Bangla Agrovet Ltd.**, offers high-quality public health products like advanced pest control solutions, chalk, and gas tablets, ensuring a safe and hygienic environment. Leveraging the expertise of its parent company, Green Care Bangladesh maintains a legacy of excellence and innovation, consistently surpassing industry standards through research and development. As a reliable partner in promoting public health, the company provides top-notch products that contribute to societal well-being, showcasing a commitment to quality and sustainability.

Achievement

“**Green Bangla Agrovet Limited**” is now a registered member of the Federation of Bangladesh Chambers of Commerce and Industry (FBCCI), the leading trade organization in Bangladesh.

Team

We boast an exceptional and diverse team of experts, each dedicated to their role, working tirelessly to achieve our business goals.

We thrive on challenges, turning them into adventures that yield remarkable outcomes.

Highlights:

Green Bangla Agrovet Ltd. is progressing with a team of proficient agriculturist personnel in the Product Development Department, specializing in ‘Regulatory Affairs’, ‘Demonstration and Promotion’, and ‘Case Study and Solution to the Farmers’. Additionally, our Head of Human Resource Management and Head of Business is also from agriculture background, bringing valuable expertise to our organizational leadership.

Future Plan

Green Bangla Agrovet Ltd. is strategically diving into the seed business to shape the agricultural landscape, aligning with its commitment to sustainable farming. The company aims to be a key player, meeting farmers' evolving needs and contributing to increased crop yields for overall agricultural prosperity.

Collaboration with Farmers

Green Bangla Agrovet Ltd. offers a variety of services to farmers, including:

Technical support:

Green Bangla Agrovet Ltd. provides farmers with technical support to help them use its products effectively and safely. The company's technical staffs are available to answer farmers' questions and provide advice on crop protection and pest management.

Training:

Green Bangla Agrovet Ltd. offers farmers training on the use of its products and on crop protection practices. The company's training programs are designed to help farmers improve their yields and profits.

Demonstration farms:

Green Bangla Agrovet Ltd. has demonstration farms where farmers can see how the company's products are used in real-world conditions. The company's demonstration farms also serve as training centers for farmers.

Outlook and Conclusion

Green Bangla Agrovet Ltd. is dedicated to delivering optimal products and services to farmers, actively contributing to the advancement of the agricultural sector in Bangladesh. Our commitment involves assisting farmers in enhancing food production to meet the increasing demands of the country's population.
